Skin 2 Skin's naturally organic [Aging Intervention Cream](#) contains Alpha Lipoic Acid, to boost antioxidant levels, Dermaxyl, to stimulate healthy cell production and Shea Butter and Vitamins A, C and E, to restore hydration. We see nothing wrong with ANY of that! Packed with age-defying and age-repairing properties, this innovative face cream works to visibly improve the surface area of skin. Protecting against free radicals, it works to repair skin damage by reversing the appearance of fine lines and wrinkles. And living in a city like this, we can use all the help we can get in the free-radical defense department, am I right?
