## Skin 2 Skin Review

I developed Skin 2 Skin™ Care because there was a need for something remarkably different, better and more effective for the age-affected skin of mature men and women.

After extensive research, I found that other products were either synthetic, a combination of synthetic with a small percentage of natural ingredients and low concentrations of 21st century peptide technologies or they were natural and organic with no advanced 21st century peptide technology."

You deserve better. Welcome to the future of skin care technology.

"Together with my colleagues, we pushed the envelope to offer you the best of all worlds: natural, certified organic extracts with the highest possible concentration of 21st century anti-aging peptides and Dermatologist-recommended Alpha Lipoic Acid. I think you'll enjoy the immediate results."

Experience softer and healthier appearing skin within the first use of Skin 2 Skin™.

All of our formulations work together to repair existing skin conditions and prevent future skin damage. They contain some of the highest concentrations of anti-aging elements known to science, designed to repair, rehydrate and enhance skin elasticity, while noticeably reducing wrinkles and improving the skin's appearance and balance.

The non-toxic, natural cleansers, creams, serums and masks include potent antioxidant elements that quench free radicals and protect against environmental pollutants and toxins. We also recognize the importance of traditional elements like Vitamins A, C, E and certified organic extracts to repair and prevent what we call solar scars or UV damage from the sun.

We use only 100% plant life replenishable ingredients - healthful for you and for our environment. As part of our commitment to clients and the environment, Skin 2 Skin Care™ implements extensive "green" practices in our manufacturing and packaging. For example, we make every effort to use local ingredients to conserve fuel consumption and support our community.

"We invite you to take the next step to enrich your life and enhance your beauty with Skin 2 Skin™ Care."

Ken Simpson

CEO, President and Founder, Skin 2 Skin™ Care

I'm not hugely worried about anti Ageing products in a whole at only 26, but found the Skin 2 Skin line very interesting.

Anti-Photoaging SPF 30, Light Tint, 2 fl. oz.

- Natural 6% Zinc Oxide and 6% Titanium Dioxide
- Uses Only FDA Recognized UVA and UVB Sun Blockers
- Formulated with Shea Butter, Jojoba and Coconut Oil
  - Acts as a Powerful Anti-Oxidant

I am not a huge fan of tinted moisturizers, because my complexion is just so light it's very hard to match, and most moisturizers are too heavy for my liking, this one isn't as heavy feeling as some, but under makeup I just am not a fan at all.

Oatmeal & Pomegranate Face Scrub, 2 fl. oz.

- Creamy Sulfate Free Cleansing Scrub
- Exfoliates Without Irritating or Stripping Skin of Protective Barrier
  - Moisturizing
- Powerful Anti-Oxidant and Anti-Inflammatory
  - Smooths and Softens the Skin

I love, Love, Love this. It leaves no residue and my skin has a sort of glow after I use it. I could go on and on about the benefits, but not at all drying or irritating to my face, and I do have rather sensitive skin.
